CHAMPAGNE

SAUVIGNON BLANC

With naturally high acidity, Sauvignon Blanc is always tangy, tart, nervy or zesty and this character pervades even sweet and dessert versions. Sauvignons are very versatile in accompanying food and can handle components such as tomatoes, peppers, garlic, smoked cheese or other pungent flavours that would clash with or overpower many Chardonnays and almost all other dry whites.

CABERNET SAUVIGNON

Cabernet Sauvignon requires more sunlight than any other red varietal. It can therefore attain higher levels of ripeness in the New World, thus unnecessary to blend with other varietals. Cabernet Sauvignon favours rare dark meats such as lamb whilst dairy products soften the tannins and highlight the fruit character.
